

ECO HISTORY

BOLLARD TO ANCHOR

Eco History bollard, suitable for installation in historic centres and prestigious areas.

Made of a vertical steel tube with characteristic spherical decorative element in iron above.

Fixing to the ground is offered with an extension for anchoring directly to the underlying ground or, in the version with base plate with fixing holes, via dowels (Code 1203102).

The bollard can be supplemented with the following accessories:

- side collars for affixing a steel chain;
- steel chain
- reflective adhesives for night-time visibility.
