

ECO ISOLA with three bins 50 lt.

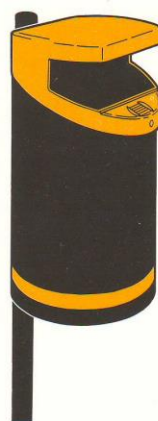

SEPARATED WASTE COLLECTION CONTAINER

Eco-Isola is a simple, effective and agreeable proposal for the promotion of separated waste collection in public areas.

It consist of a central steel support pole, available in both the version to fix in the ground and that with the plates with holes for anchoring to the floor, with three bins, which induce the separation of the waste through attractive colours.

Each waste bin consists of an upper cover with opening protected from bad weather supplemented by a cigarette stubber and a container of 50 lt. with a cigarette end collection area incorporated.

The bin is also fitted with a special security triangular lock.
