

ECO PILA TRASPARENT

USED BATTERIES CONTAINER

Eco Pila Transparent is our offer for the collection of used batteries in areas of public interest, offices, shopping centres, schools, etc.

The container is intuitive in shape and is easy to use, both for users leaving batteries and those making the collection.

It consists of a base in painted steel, a transparent container tube in polycarbonate with high resistance to knocks and a removable cover with hole for depositing the used batteries.

There is soft material at the bottom to dampen the fall of the batteries. Used battery ideogram and graphic. Personalisations on request.
