

ECO SAC CITY

WASTE BIN

The pole-mounted ECO SAC waste bin is in robust galvanised steel plate painted in outdoor polyester powder to resist 'street stress'.

The model has a gently wavy profile and is simple, functional and lasting, easy to include in any urban context.

A bag-blocking ring, hygienic and strong, protects the whole bin and enables easy positioning/removal of the collection bag.

The bin has a bracket for fixing to the wall or an existing pole.

Can also be supplied directly with the steel tube pole.
