

ECO FARMACO with base

MEDICINE CONTAINER

The specific container for the collection of expired medicines can be used both inside and outside public places.

Totally closed with safety lock; it has a special opening for the deposit of the medicines which prevents removal of material already stored.

Easy to use, it has an extractable bag-blocking ring for emptying.

The self standing version of the container is fixed on an elegant base in hammered concrete particularly resistant to external atmospheric agents.

CODE	1109110
DESIGN	A.U.ESSE srl
