

ECO PILA with base

USED BATTERIES CONTAINER

This is the specific tool for the collection of used batteries. As a result of its pleasing appearance, (designed to attract users) it can be positioned both inside and outside public places.

Eco Pila is supplied in the self standing version with an elegant base in hammered concrete.

Collections are separate for penlight and button cell batteries, emptying is through the special internal containers that ensure good collection capacity and speed of operation.

The container is also fitted with a special security lock.
