

LUISITO

CONTAINER FOR THE COLLECTION OF CANINE EXCREMENT WITH DISTRIBUTOR BAGS

Luisito is a completely metal container consisting of two shells hinged together which isolate the container area for the collection bag.

A bag distributor for 400 items is positioned at the front. This module, mechanically separated from the base structure, has a hatch with window for removal of a bag.

Luisito can be easily be installed anywhere on an existing pole or wall.

A pole to be put into the ground or a self standing pedestal can be supplied on request.

All the closures are protected by locks with a triangular key.
