

TITTA LINE

BENCH

The Titta - Line bench has similar features to the Frame bench offering a simple, almost minimalist but strictly elegant sign.

The lightness of the shapes, the use of the fine materials and the attention to construction details enable great adaptability of the bench to the different urban contexts both for individual installations and as a module in a more structured furnishing project.

CODE	1201100
DESIGN	Arch. G. Villa
PATENT	Exclusive property of A.U.ESSE srl
SIZE	Volume and seat 1700 x 520 x h 500 mm
