

ECO 4.0

SEPARATED WASTE COLLECTION CONTAINER

ECO 4.0 is characterized by a sober and linear design for an optimum insertion in public and private areas (such as stations, airports, shopping centers, sports facilities, offices, etc.)

The intuitive shape and graphic customization make it easy to use, leading to a proper separation of waste.

The container is completely made in electro galvanized sheet steel and consists of four compartments with a top closing plate, provided by a triangular key lock.

The constructive quality and the components quality guarantee functionality and durability.

The container can be supplied with rain cover and concrete base for outdoor installation.

CODE	1101032
DESIGN	A.U.ESSE srl
